

ACT Peak Oil Inc Report of Activities

ACT Peak Oil

20 November 2010

Dear Member,

The financial year has unfortunately been a quiet one for us. We continued to operate the email lists, sending out notice of local events and news items of interest. A pleasant social meet-and-greet drinks event was held in June for members.

Since the end of the financial year our Vice President Jenny Goldie had an opinion published in the Canberra Times on the downsides of a 'Big Australia' and I produced a guide to the Peak Oil-related policies of the 3 main groupings at the 2010 Federal Election (both items are available on our website).

We are currently helping organise a speaking engagement on December 13 at the Legislative Assembly for Kjell Aleklett. Professor Aleklett is President of the Association for the Study of Peak Oil and head of the Global Energy Systems group at Uppsala University, Sweden. Please set aside that evening in your diary, hopefully we can impress the urgency of the Peak Oil situation upon the ACT government.

Alex Pollard
President
ACT Peak Oil Inc.
